

# Math 2100 / 2105 / 2350

## Revision Cover Sheet

**This form must be attached to all revisions you submit.  
Revisions will not be accepted if this form is not attached.**

Which assignment are you revising? \_\_\_\_\_

Which exercises from this assignment are you revising? \_\_\_\_\_

*It costs 1 token to revise a quiz question and 2 tokens to revise an exam question.*

### Demonstrating Productive Failure

What caused you to get this exercise wrong? Be as specific as possible. (E.g.: I misunderstood the definition of X because..., I misread the problem and thought..., I didn't know that X because I wasn't in class that day.)

What could you do differently in the future to prevent mistakes like this?

### Checklist

- Answer the top two questions about which assignment and exercises you are revising.
- Answer both of the questions in the section Demonstrating Productive Failure. These questions are really meant to make you self-evaluate, so please take them seriously.
- Attach this cover sheet on top, followed by the already graded assignment, followed by the revision.
- Staple them all together.** If this is the second and more revision, keep the old cover sheets attached.
- You must have this cover sheet and the original graded homework attached or your revision won't be graded.
